## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4-11, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Lutz #1,375,222. Lutz discloses a cover 18 comprising the cover 18 and a body 10 defining an upper rim 20, first fixing element 23 on the cover and second fixing elements 12 on the body for providing a snapping engagement to lock the cover, and at least one damping member 21 adapted to space apart the cover from the upper rim of the body.

### ***Allowable Subject Matter***

3. Claims 2, 3, 12-14, and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
